Sydney, Australia

### BUILDING TYPE

Hotel Resort

### No gambling on reliable shading for new VIP Gaming Room.

The Star Casino in Sydney has upgraded its luxurious high-roller area called the Sovereign Room.

The refurbishment project comprises complex works to the eastern side of the existing Sovereign VIP Gaming Room to provide an improved guest experience. Creating over 6,500m<sup>2</sup> of additional space and including new gaming areas, kitchen and dining, vertical access, amenities and back of house facilities.

# CASE STUDY

## STAR CASINO

An array of shading solutions were supplied and installed to the large glass window façades including heavy duty motorised cable guided roller shades using CRE+Vestamatic control and TESS shading tension systems. TESS™440 blinds were fitted in the Chairman's section, an exclusive area for the highest rollers and Diamond members.

The TESS™440 is designed to deliver reliability, discretely. Slim wire guides make it easy to design for near invisibility when retracted. The single barrel mechanism keeps the fabric constantly under tension and produces a smooth, quiet travel.
